ABOUT DILIGENCE CERTIFICATIONS

Diligence Certifications is a trusted compliance and certification consulting firm in India, helping businesses obtain regulatory approvals smoothly and efficiently.

With 25+ years of industry experience, our team supports manufacturers, importers, and exporters with documentation testing coordination, and certification approvals.

We provide end-to-end support for certifications including BIS, CDSCO, PESO, CPCB, WPC, LMPC, ISO, TEC, BEE, ARAI, and Global Approvals such as CE, FCC, RoHS, UL, UKCA, SASO and many more.

Our focus is to simplify compliance processes and help businesses meet regulatory standards quickly while building trust and credibility in the market.

COMPANY EXPERIENCE AND CAPABILITIES

Diligence Certifications has extensive experience in providing Certification and regulatory compliance services to businesses across India and Global Markets. Our expert team supports manufacturers, importers, exporters, and startups with end-to-end assistance in obtaining mandatory certifications and approvals. With strong industry knowledge and Professional expertise, we help companies complete documentation, testing coordination, and certification processes smoothly and efficiently. Our services cover major approvals including BIS, CDAsco, PEsso, PCEB, WPC, LMPC, TEC, ISO, BEE, ARAI, and various global certifications. By combining expert guidance with a structured compliance process, we ensure faster approvals and reliable support for businesses operating in different industries.

OUR VISION

To become a trusted global partner in certification and regulatory compliance by helping businesses achieve quality standards, regulatory approvals, and sustainable growth.

OUR MISSION

To provide reliable and efficient certification and compliance services through expert guidance, accurate documentation, and faster approval processes for businesses across multiple industries.

&

GLOBAL SUPPORT, LOCAL EXPERTISE

Diligence Certifications provides expert certification and regulatory compliance support for businesses in India and global markets. We assist manufacturers, importers, and exporters in obtaining approvals such as BIS, CDSCO, PESO, CPCB, WPC, LMPC, TEC, ISO, and international certifications including CE, FCC, RoHS, UL, and UKCA. With strong industry expertise, we ensure a smooth, reliable, and hassle-free certification process for domestic and international market access.

CERTIFICATION & COMPLIANCE INTRODUCTION

In today's competitive market, meeting government regulations and quality standards is essential. Certifications help businesses demonstrate compliance and build customer trust. Diligence Certifications provides end-to-end support for obtaining certifications and regulatory approvals including documentation, testing coordination, and complete process management. We simplify compliance so businesses can focus on growth and market expansion.

BENEFITS OF CERTIFICATION

- ✓ Helps follow government Rules and standards.
- ✓ Improves product quality and reliability.
- ✓ Builds trust with customers and partners.
- ✓ Reduces legal and compliance risks.
- ✓ Supports business growth.

& MANY MORE...

BUREAU OF INDIAN STANDARDS (BIS)

BIS Certification

Ensures products comply with Indian safety and quality standards before manufacturing, import, or sale in India. It helps businesses meet regulatory requirements and build customer trust

ISI Certification

ISI Certification confirms that products meet BIS safety and quality standards. It is mandatory for certain products before manufacturing or selling them in India

CRS Certification

CRS Certification is required for electronic and IT products under the BIS Compulsory Registration Scheme. It ensures compliance with Indian safety standards before sale or import.

Hallmarking Certification

Hallmarking Certification verifies the purity and quality of gold and silver jewellery as per BIS standards. It builds transparency and trust for consumers in the jewellery market.

FMCS Certification

FMCS Certification is required for foreign manufacturers exporting products to India. It ensures compliance with BIS safety and quality standards.

ECO MARK Certification

ECO Mark Certification confirms that products meet environmental and quality standards defined by BIS. It promotes eco-friendly manufacturing and sustainable practices

Laboratory Accreditation

Laboratory Accreditation ensures testing laboratories meet quality and technical competence standards. It improves reliability and accuracy of testing services.

WMI Registration

WMI Registration provides a unique World Manufacturer Identifier code for vehicle manufacturers. It helps ensure proper vehicle identification and regulatory compliance

BIS Scheme X Certification

BIS Scheme X Certification ensures machinery and electrical equipment meet Indian safety, quality, and compliance standards under the Omnibus Technical Regulation (OTR), helping manufacturers legally sell products in India

CENTRAL DRUGS STANDARD CONTROL ORGANIZATION (CDSCO)

01

CDSCO Registration

CDSCO Registration is required for medical devices, drugs, and cosmetics in India. It ensures compliance with safety, quality, and regulatory standards

02

Drug License

A Drug License is mandatory for manufacturing, distributing, or selling pharmaceutical products in India. It ensures compliance with health and safety regulations.

03

Cosmetic License

Cosmetic License is required for the manufacture or import of cosmetic products in India. It ensures that products meet safety and regulatory standards.

04

Medical Device Registration

Medical Device Registration ensures that medical devices comply with Indian safety and quality standards. It is mandatory before import, manufacture, or sale.

PESO CERTIFICATION

Your Trusted Partner for
PESO Compliance & Approvals

GCR Rules 2016

Complete guide on GCR Rules 2016 in India covering gas cylinder manufacturing, testing, approvals, and safety compliance under PESO regulations.

SMPV(U) Rules 2016

Get complete SMPV(U) Rules 2016 in India approval, certification, and compliance services in India.

Petroleum Rules 2012

Get complete PESO approval process & Petroleum Rules 2012 guide in India. Learn licensing, documents, compliance & how to avoid delays.

Explosive Rules 2008

Explosive Rules 2008 India with approved explosives list, PESO guidelines, licensed manufacturers, fireworks, ports, and compliance details.

WPC APPROVAL

सत्यमेव जयते
Wireless Planning & Coordination
(WPC)
Government of India

01

WPC Approval

WPC Approval is required for wireless and telecom products to ensure compliance with Indian regulatory standards before sale, use, or import.

02

Equipment Type Approval

Equipment Type Approval ensures telecom and wireless equipment meet Indian technical standards before sale or use.

03

WPC Import License

This license is required to import wireless communication devices into India. It ensures compliance with regulatory standards.

04

DPL/NDPL Certification

DPL/NDPL Certification is required to ensure compliance with electricity distribution authority regulations for electrical products, connections, or installations before approval or use in the service area.

LEGAL METEROLOGY

Compliance solutions for packaged commodities, importers, and manufacturers in India.

01

LMPC Certification

LMPC Certification is required for importers and manufacturers of pre-packaged commodities. It ensures compliance with Legal Metrology labelling and packaging rules.

02

Packaged Commodities Registration

This registration ensures packaged goods follow proper labelling, declaration, and measurement rules before sale in India.

03

LMPC Import License

LMPC Import License is required for importing pre-packaged goods. It ensures compliance with Legal Metrology regulations.

04

LMPC Manufacturer Registration

LMPC Manufacturer Registration is required for manufacturers of pre-packaged commodities to ensure proper labeling and packaging

Central Pollution Control Board (CPCB)

01

CPCB Certification

CPCB Certification ensures that products comply with environmental protection and pollution control regulations. It helps businesses follow sustainable and legal practices

02

Plastic Waste Compliance

Plastic Waste Compliance ensures proper collection, recycling, and safe disposal of plastic waste under EPR regulations, helping businesses stay legally compliant and environmentally responsible.

03

Battery Waste Certification

Battery Waste Certification ensures safe handling, recycling, and disposal of batteries. It helps companies comply with environmental regulations.

04

E-Waste Certification

E-Waste Certification ensures electronic waste is collected and recycled safely. It supports proper disposal and environmental protection.

05

Tyre Waste Certification

Tyre Waste Certification ensures proper recycling and disposal of used tyres. It helps reduce environmental pollution.

06

Oil Waste Certification

Oil Waste Certification ensures safe handling and disposal of used oil. It helps businesses comply with environmental safety standards.

07

No Objection Certificate

A no Objection Certificate is an official approval from an authority confirming there is no objection to a particular business activity

GLOBAL APPROVALS

RoHS Certification

RoHS Certification ensures that electrical and electronic products comply with restrictions on hazardous substances as per environmental and safety regulations before manufacture, import, or sale in India.

UL Certification

UL Certification verifies that products meet recognized international safety and quality standards for electrical, electronic, and consumer goods before market distribution or use.

KC Certification

KC Certification is required to ensure that electrical and electronic products comply with Korean safety and quality standards before import, sale, or distribution in South Korea.

FCC Certification

FCC Certification is required to ensure that electronic and wireless devices comply with radio frequency and electromagnetic interference standards before import, sale, or use in the United States.

CB Certification

CB Certification is an international scheme that confirms electrical and electronic products comply with global safety standards, enabling easier acceptance and market access across multiple countries.

SAFTA Certificate

SAFTA Certificate is issued to confirm that goods qualify for tariff concessions under the South Asian Free Trade Area agreement, enabling easier trade between member countries.

MSDS Certificate

MSDS Certificate (Material Safety Data Sheet) provides detailed information about the chemical composition, hazards, safe handling, storage, and emergency measures for chemical products, ensuring workplace safety and regulatory compliance.

CE Certification

CE Certification confirms that a product complies with European safety, health, and environmental protection standards, allowing it to be legally marketed and sold within the European Economic Area (EEA).

TEC CERTIFICATION & ARAI CERTIFICATION

TEC CERTIFICATION

TEC Certification is issued by the Telecommunication Engineering Centre for telecom and communication equipment in India. It ensures compliance with essential technical, safety and performance standards before sale or use.

ARAI CERTIFICATION

ARAI Certification is issued by the Automotive Research Association of India for vehicles and automotive components. It confirms compliance with safety, emission, and performance standards as per Indian regulations.

BEETM Certification

POWER SAVINGS GUIDE

ENERGY EFFICIENCY
ISEER - 5.20*
Label Period: 1st July 2022 - 31st Dec 2024

Appliance/Type	: RAC/Split
Brand	: SAMSUNG
Model/Year	: AR12TX3SOBA
Cooling Capacity (100%)	: 5100 (W)
Cooling Capacity (50%)	: 2540 (W)
Electricity Consumption	: 518.11 Units Per Year
Compressor Type	: Variable Speed
Heat Pump	: No

*Under test conditions, in actual practice electricity consumption will depend on how the appliance being used.

BEE Registration is governed by the Bureau of Energy Efficiency for notified electrical appliances. It mandates energy efficiency labelling and compliance with prescribed energy performance standards.

ISO 14001

ISO 14001 is an international standard for Environmental Management Systems (EMS). It helps organizations improve environmental performance, ensure regulatory compliance and promote sustainable practices

ISO 9001

ISO 9001 is an international standard for Quality Management Systems (QMS). It focuses on consistent product quality, customer satisfaction, and continuous improvement.

ISO 50001

ISO 50001 is an international standard for Energy Management Systems (EnMS). It enables organizations to improve energy efficiency, reduce costs, and lower environmental impact.

ISO 45001

ISO 45001 is an international standard for Occupational Health and Safety Management Systems (OHSMS). It aims to reduce workplace risks and ensure employee safety.

ISO 13485

ISO 13485 is a quality management standard specifically for medical device manufacturers. It ensures compliance with regulatory requirements and consistent product safety.

ISO 22000

ISO 22000 is an international standard for Food Safety Management Systems (FSMS). It ensures food safety across the supply chain through hazard analysis and risk control measures.

01 DRONE REGISTRATION

Drone Registration is mandatory in India under DGCA regulations for operating unmanned aircraft systems. It requires obtaining a Unique Identification Number (UIN) and compliance with Digital Sky platform guidelines.

02 TYPE CERTIFICATE

A Type Certificate for drones is an official approval issued to confirm that a drone model meets the required safety, quality, and technical standards set by aviation authorities. It is mandatory for certain categories of drones before registration and operation in India. The certificate ensures the drone is compliant, safe for use, and approved for legal commercial or industrial activities.

03 PILOT CERTIFICATE

A Pilot Certificate for drones is an official authorization required for individuals operating drones in regulated airspace or commercial activities. It confirms that the drone pilot has completed the necessary training and understands aviation safety and operational guidelines. This certificate is essential for legal drone operations and helps ensure safe, compliant, and responsible use of drones in India.

04 UNIQUE IDENTIFICATION NUMBER

A Unique Identification Number (UIN) for drones is an official registration number issued by the aviation authority to identify and track drones operating in India. It is mandatory for eligible drones and helps ensure legal operation, safety compliance, and proper monitoring. The UIN links the drone to its owner and is required for regulatory approvals and authorized drone activities.

BUSINESS REGISTRATION

01

Public Limited Company Registration

Public Limited Company Registration allows businesses to raise capital from the public with limited liability protection under the Companies Act, 2013.

02

One Person Company (OPC) Registration

One Person Company Registration is governed under the Companies Act, 2013 and allows a single entrepreneur to operate as a separate legal entity with limited liability protection. It requires one director and one nominee.

03

LLP Registration

Limited Liability Partnership (LLP) Registration is governed under the LLP Act, 2008 and allows partners to operate with limited liability protection and flexible management structure. It requires a minimum of two partners.

04

Firm Registration

Firm Registration is governed under the Indian Partnership Act, 1932 and allows two or more individuals to carry on business together with shared profits and responsibilities.

05

Startup India Registration

Startup India Registration provides recognition to eligible startups under the Government of India initiative, offering tax benefits, funding support, and regulatory relaxations.

06

GeM Registration

GeM Registration enables businesses to list and sell products or services on the Government e-Marketplace (GeM) portal for procurement by Government departments and public sector units.

07

Private Limited Company Registration

Private Limited Company Registration is governed under the Companies Act, 2013 and allows a business to operate as a separate legal entity with limited liability. It requires a minimum of 2 directors and 2 shareholders.

08

Indian Subsidiary Company Registration

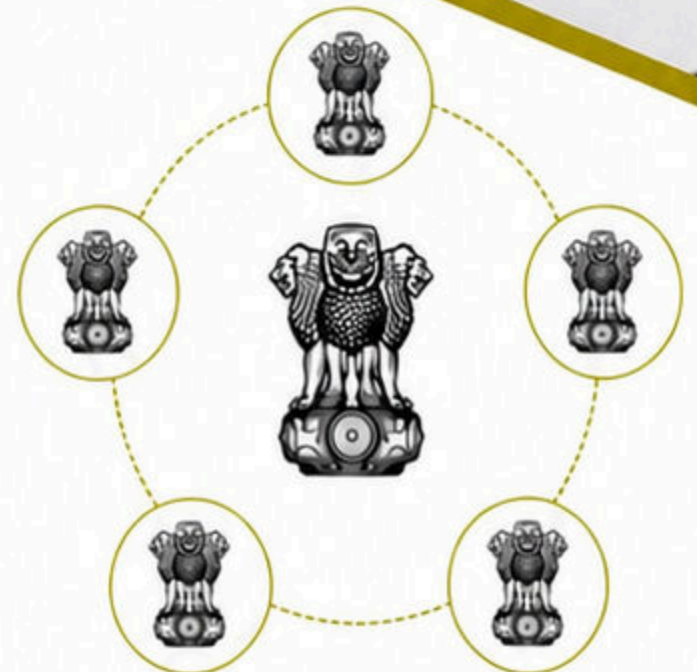

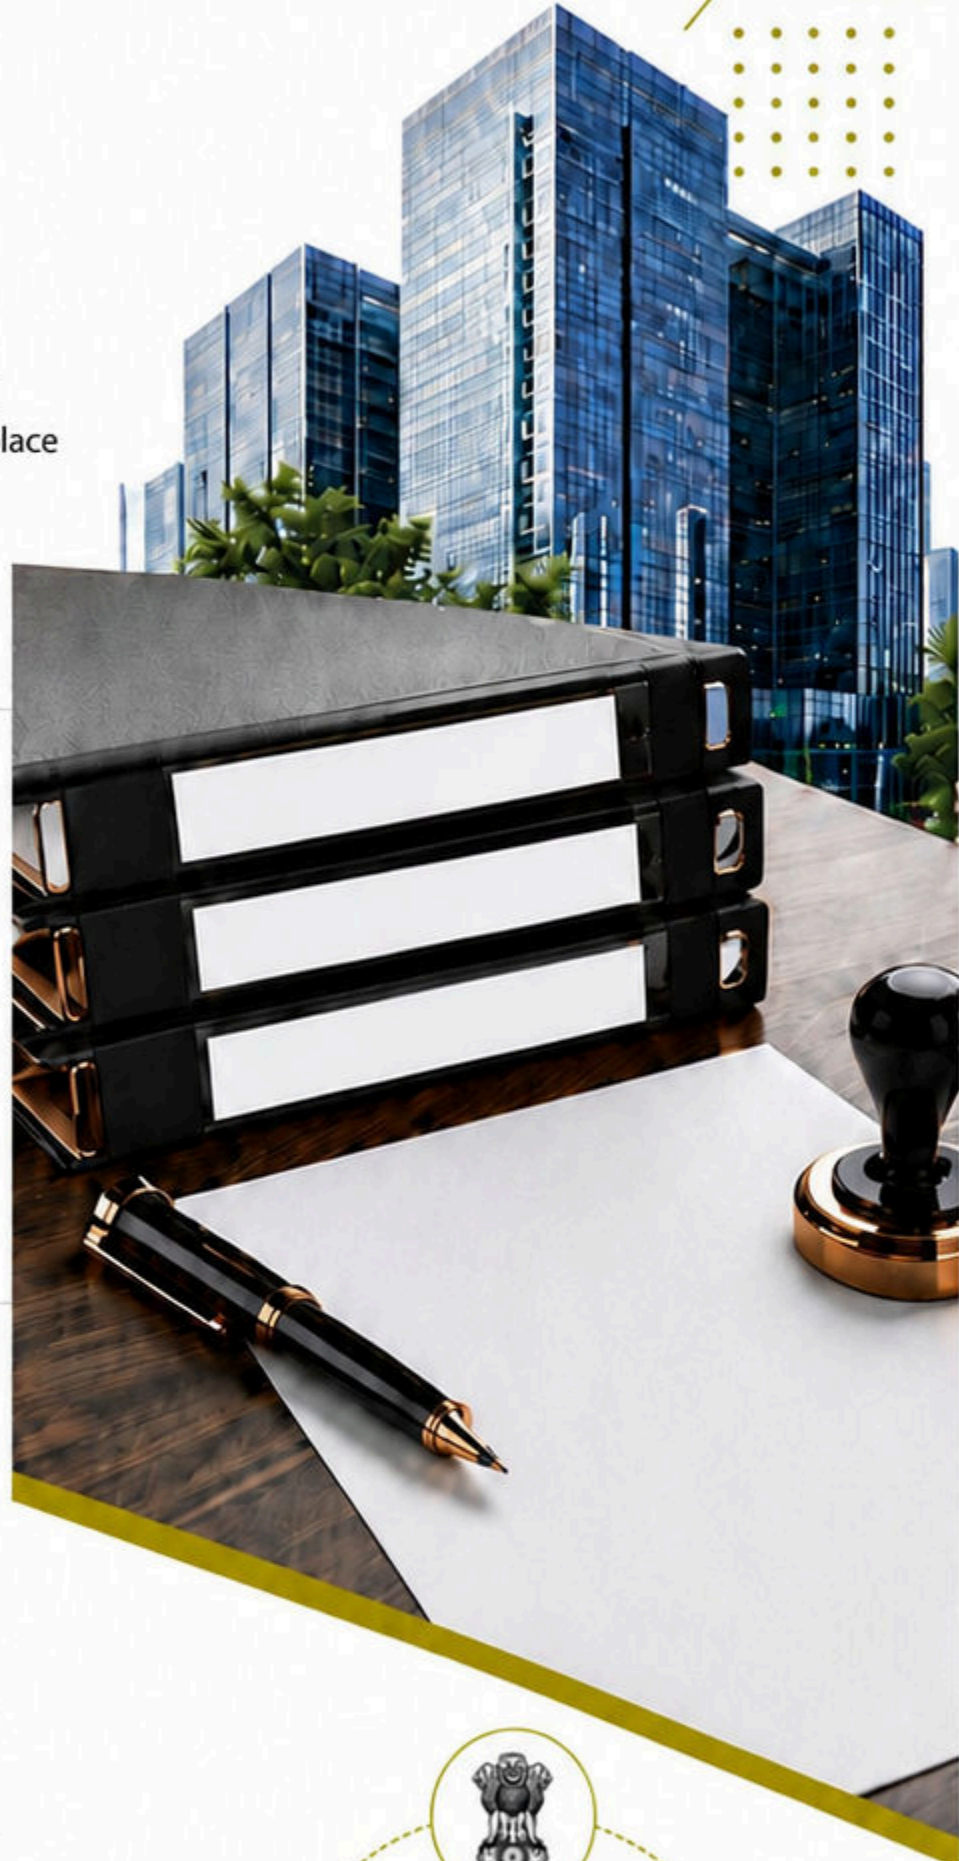

Indian Subsidiary Company Registration allows a foreign company to establish a legally recognized entity in India under the Companies Act, 2013, with limited liability and compliance requirements.

09

Producer Company Registration

Producer Company Registration is governed under the Companies Act, 2013 and is formed by farmers or producers to collectively engage in production, harvesting, procurement, grading, and marketing activities.

10

Sole Proprietorship Registration

Sole Proprietorship Registration allows an individual to operate and control a business independently. The owner holds full control and unlimited liability for business operations.

11

Partnership Firm Registration

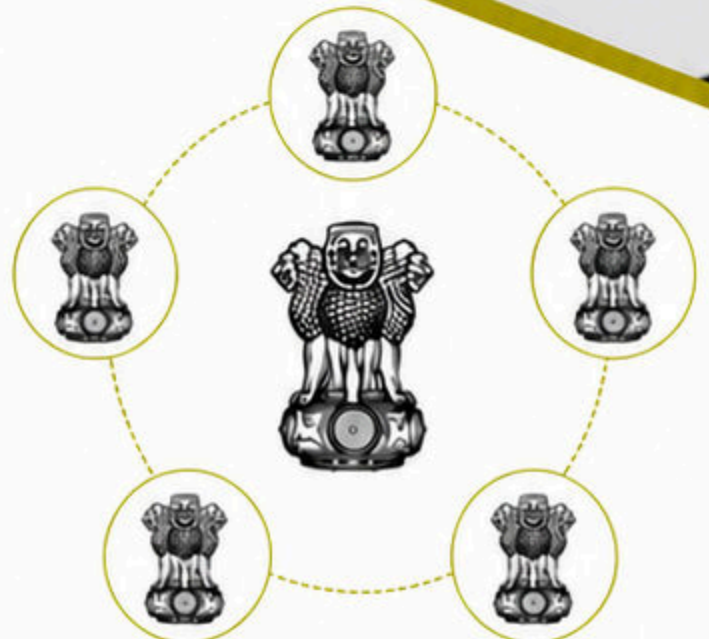

Partnership Firm Registration is governed under the Indian Partnership Act, 1932 and allows two or more individuals to conduct business together with shared profits, responsibilities, and liabilities.

12

NGO Registration

NGO Registration allows organizations to operate legally as a Trust, Society, or Section 8 Company for charitable, social, or non-profit activities in India.

LEGAL NOTICE

01

Legal Notice

A Legal Notice is a formal written communication sent to an individual or entity regarding a dispute or legal claim. It serves as a final opportunity to resolve the matter before initiating court proceedings.

02

RERA Compliance

RERA Compliance ensures real estate projects follow the Real Estate (Regulation and Development) Act, 2016. It mandates proper registration, disclosures, and protection of homebuyer rights.

03

Public Interest Litigation (PIL)

Public Interest Litigation allows any individual or organization to approach the court for matters affecting public interest. It aims to protect fundamental rights and promote social justice.

04

Caveat Petition

A Caveat Petition is filed to ensure that no court order is passed without prior notice to the Caveator. It safeguards the right to be heard before any interim decision.

05

Legal Heir Certificate

Legal Heir Certificate identifies the rightful heirs of a deceased person. It is required for claiming property, insurance, pension, or other financial benefits.

06

Section 8 Demand Notice

Section 8 Demand Notice is issued under the Insolvency and Bankruptcy Code, 2016 for recovery of operational dues. It provides the debtor 10 days to clear outstanding payments.

07

Succession Certificate

Succession Certificate is granted by a civil court to legal heirs. It authorizes them to claim debts, securities, and financial assets of the deceased.

08

Lease Agreement Drafting

Lease Agreement Drafting is the process of preparing a legal rental document between landlord and tenant. It clearly defines rent, tenure, security deposit, responsibilities, and terms.

09

Will Drafting

Will Drafting is the process of legally declaring how a person's assets will be distributed after death. It ensures smooth transfer of property to beneficiaries.

10

Mutual Divorce

Mutual Divorce is a legal process where both spouses consent to dissolve the marriage amicably. It simplifies proceedings and settles issues like alimony and custody.

11

Property Registration

Property Registration legally records the transfer of ownership with the sub-registrar office. It provides lawful recognition and protection of ownership rights.

12

Divorce Notice

Divorce Notice is a formal legal communication sent by one spouse to initiate divorce proceedings. It outlines the intention and grounds for dissolution of marriage.

13

Property Valuation

Property Valuation determines the fair market value of real estate. It is essential for sale, taxation, loan, or legal purposes.

14

Lease Registration

Lease Registration records a lease agreement with the appropriate authority. It ensures legal validity and enforceability of tenancy rights.

15

Property Verification

Property Verification involves checking title documents, ownership history, and encumbrances. It ensures the property is legally clear before purchase.

16

Hindu Marriage Act

The Hindu Marriage Act, 1955 governs marriage, divorce, and related rights among Hindus in India. It outlines legal provisions for matrimonial remedies and obligations.

17

Divorce Settlement Agreement

Divorce Settlement Agreement defines mutually agreed terms between spouses. It covers alimony, child custody, asset division, and financial arrangements.

18

Domestic Violence

Domestic Violence in India includes physical, emotional, sexual, verbal, and financial abuse. The Domestic Violence Act, 2005 protects women and provides legal remedies like protection orders, monetary relief, and police complaints.

19

Bail Application

Bail Application is filed before a court seeking temporary release of an accused. It ensures liberty while trial proceedings continue.

20

Judicial Separation

Judicial Separation is a court order allowing Spouses to live separately without ending the marriage. It provides legal recognition of separation.

21

Will Registration

Will Registration involves officially recording a will with the sub-registrar. Though optional, it strengthens authenticity and reduces disputes.

22

Special Leave Petition (SLP)

Special Leave Petition is filed before the Supreme Court under Article 136 of the Constitution. It challenges judgments passed by lower courts or tribunals.

23

Consulting Agreement

Consulting Agreement sets out the terms between a consultant and client. It defines scope of work, payment terms, confidentiality and responsibilities

24

Vendor Agreement

Vendor Agreement outlines terms between a supplier and purchaser for goods or services. It specifies pricing, delivery, payment, and dispute resolution terms..

25

License Agreement

License Agreement grants permission to use intellectual property, brand, or assets under defined conditions. It specifies rights, limitations, and duration

26

Tenant Eviction

Tenant Eviction is a legal process to remove a tenant due to non-payment or breach of agreement. It must follow applicable rent control and property laws.

TRADEMARK REGISTRATION

01 | Trademark Registration

Trademark Registration provides legal protection to a brand name, logo, symbol, or tagline under the Trade Marks Act, 1999. It grants exclusive rights to use the mark and prevents unauthorized usage by others.

02 | Trademark Objection

Trademark Objection is raised by the Trademark Examiner during the examination process if any discrepancies or conflicts are found. A proper legal reply must be filed to justify and defend the application

03 | Trademark Assignment

Trademark Assignment refers to the transfer of ownership rights of a registered or pending trademark from one party to another. It can be done with or without goodwill as per agreed terms.

04 | Trademark Rectification

Trademark Rectification is the process of correcting or removing an incorrect entry from the Trademark Register. It may be filed in case of errors, wrongful registration, or non-use of a trademark.

05 | Trademark Renewal

Trademark Renewal extends the validity of a registered trademark beyond its initial 10-year period. It ensures continued legal protection and exclusive rights over the mark.

06 | Trademark Licensing

Trademark Licensing allows the trademark owner to grant permission to another party to use the mark under specified terms. It helps in brand expansion while retaining ownership rights.

07 | Trademark Opposition

Trademark Opposition is a legal objection filed against the registration of a published trademark. It can be initiated by any third party within the prescribed time period.

COPYRIGHT REGISTRATION

Copyright Registration

Copyright Registration provides legal protection to original literary, artistic, musical, cinematographic, and software works under the Copyright Act, 1957. It establishes ownership and grants exclusive rights to reproduce, publish, and distribute the work.

Copyright Disclaimer

Copyright Disclaimer is a legal statement specifying ownership rights and limiting unauthorized use of content. It helps clarify permissions, restrictions, and liability related to copyrighted material.

Copyright Licensing

Copyright Licensing allows the copyright owner to grant permission to another party to use the work under agreed terms. It defines scope, duration, territory, and royalty conditions.

Copyright Objection

Copyright Objection may be raised during the registration process if discrepancies or claims arise. A formal response or clarification must be submitted to proceed with registration.

Copyright Assignment

Copyright Assignment is the legal transfer of ownership rights from the creator to another party. It must be executed through a written agreement specifying rights and duration.

PATENT REGISTRATION

Patent Registration

Patent Registration grants exclusive rights to an inventor for a new and inventive product or process under the Patents Act, 1970. It prevents others from making, using, or selling the invention without permission.

Indian Patent Search

Indian Patent Search involves examining existing patents and publications to determine novelty and avoid infringement. It helps assess the patentability of an invention before filing.

Patent Opposition

Patent Opposition allows third parties to challenge the grant of a patent on specific legal grounds. It can be filed before or after the patent is granted.

Patent Revocation

Patent Revocation is the legal cancellation of a granted patent by the court or patent authority. It may occur due to lack of novelty, wrongful grant, or non-compliance with legal requirements.
